

The EDHS Math Team

Krista Elliott-MacIsaac, OCT

Math teacher and Department Chair

kaelliott@scdsb.on.ca

Education background:

Honour Specialist - Mathematics: York University

Graduate Education Program, Mathematics Specialization: Canisius College

Bachelor of Science, Mathematics and Statistics: York University

Professional background:

I began teaching with the Simcoe County District School Board in 2008, and joined EDHS in 2011 as a Mathematics teacher and Department Chair. I have experience teaching in both the Intermediate and Senior Mathematics divisions, an extensive knowledge of the Ontario Mathematics Curriculum, and a passion for supporting the development of numeracy skills. I love learning and am dedicated to exploring classroom strategies that meet each student's unique learning needs. I have genuine interest in engaging students and am adept at inspiring positive math mindsets and assessment *for, as, and of* learning. I believe that a main objective of mathematics education is to prepare students to educate themselves throughout their lives.
